INFORMATION AND DETAILS OF LOGOS

I'm a box made only of cardboard, with no plastic materials

FSC is a mark and seal that guarantees sustainability and the responsible origin of a wide range of forest products across the world, starting with the forest of origin and including all the companies that intervene in their manufacture processes until they reach the end consumer.

For more information, see <https://uk.fsc.org/>

xx% of recycled plastic from post-consumer materials

Product made with a percentage of Plastic IQ. Permits the faster biodegradation of all types of polymers without compromising their durability or performance.

For more information, see

<https://www.madewithiq.com/>
